

## BAIONA 2023

### BOAT TRACKERS

All boats will have to pick up their tracking device at the regatta office on 18/09/2023 from 13:00h.

The organisation will provide all the boats with a tracker, a tracker base and four cable ties for the positioning of the tracker base.

The tracker base will be placed on the part of the mast that is inside the boat.

**The member of the crew collecting the tracker will have to sign the device out.**

**Trackers will have to be handed in for charging after the end of the races on the 20th and 22nd of September.**

### INSTALLATION INSTRUCTIONS:

1ºThe first thing to do is to secure the tracker base using the cable ties.

## BAIONA 2023

2º After the base has been attached to the mast, the tracker is secured with two rubber bands on the sides of the base.
