

BAIONA 2023

Order of lifting of the boats according to their distance from the port of destination

All the boats will be **lift without the mast**. There will be two areas for the lifting of the boats, they are indicated in the attached images.

On Saturday the lifting period is from 6pm to 8 pm, only the first 24 boats of the list will be raised.

On Sunday the lifting period is from 8am until all the ships are done

The organisation will be in the trailer parking to explain how and when the crew must go to any of the two lifting areas. Once the boat is raised (not in the water), it must return to its trailer parking area.
